

Individual Contribution (Web API Development Project)

Project name: NSVBank

Name: Navjot Singh Virk

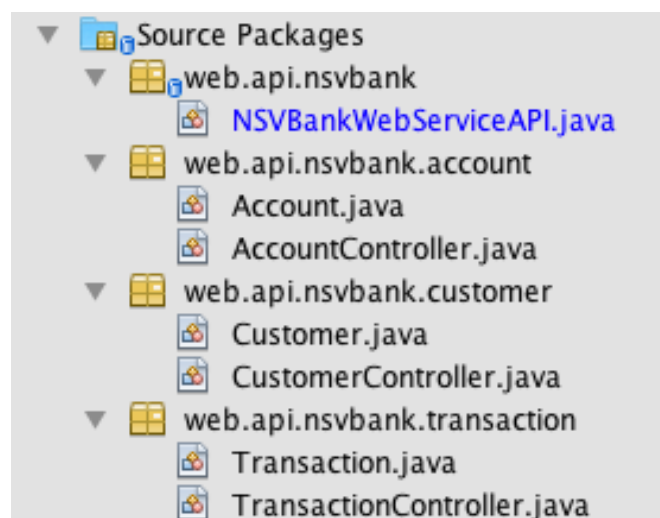

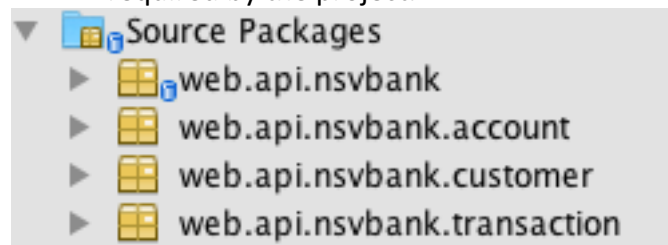

Student Number: x13112406

My Github Repo for the project: <https://github.com/Virksaabnavjot/NSVBank> and other team members have access to it.

- Textual description of the problem and the proposed solution part in the Introduction.
- Me and Valentin: We did the ERD Diagram together.
- Most of the Coding for the project (individual contributions can be seen here: <https://github.com/Virksaabnavjot/NSVBank/graphs/contributors>)

Including from the start of the project.

- I set upped the whole project base to start with mentioned in this document - <https://github.com/Virksaabnavjot/NSVBank/blob/master/documentation/Jersey%20Web%20API%20Development.pdf>
- Solution Architecture Design
- Package and File Structure in the beginning and some changes were made later as required by the project.

- Set up the Client by following the material available on Moodle.
